seeks to empower others to celebrate their sexuality in healthy ways

# ETHICAL PORN

## SOME EXAMPLES...

### BELEESA

Our mission is to empower women to embrace, explore and celebrate their sexuality—unapologetically. We believe a key part of the journey to becoming a self-actualized sexual being is being able to view quality ethical porn online. What's more empowering than seeing yourself and your deepest desires reflected, rather than an endless stream on degrading money shots? We strive to change the world, one great orgasm at a time.

### QUEER PORN.TV

#### Founding Manifesto by Courtney Trouble and Tina Horn

- QueerPorn.TV is hardcore sex positivity, public access to the sexual underground.
- QueerPorn.TV is queer porn made by and for queer people (and the porn fans who love us!)
- QueerPorn.TV facilitates spontaneous, messy sexuality with a transparent stance that bodily pleasures we are not ashamed of our identities and desires
- QueerPorn.TV is a culture force in and of itself in addition to documenting expressions of the freedoms associated with queer sex
- QueerPorn.TV does not say what is and is not sex, what is and is not hot, and what is and is not queer.
- We intend to showcase sex that people want to perform as opposed to the sex that we expect audiences want to see. This project is intended to be a documentation of exhibitionist queers having a great time.
- QueerPorn.TV brings porn off the screen and into the community, by hosting dance clubs, film screenings, photo booths, and play parties all over the world. Bringing queer people together to celebrate sexuality and talk about porn.

# REALITIES OF PORN

Depictions of violence and aggression -  
 ◦ The majority of pornographic content—as high as 88% in one study— features aggression of some sort

- Misleading messages about realities of sex
  - Porn is intended to serve as entertainment, not education, yet many young people cite it as their primary source of sex education

- Violence towards performers
  - Many female porn stars have come forward with stories of abuse they suffered on set
- Lack of regulations
  - Until very recently, it was extremely easy for revenge porn, child pornography, and other harmful content to spread on sites like Pornhub. New site policies have made this more difficult, but the problem remains
